Press release

By the foundation of Keskin Color in 1966, Keskin Color enhanced its product range and added greeting cards, tourism books, calendars, slides, posters, plans and maps to its collection. In 2016, company moved its production and warehouse in a modern 15.000 meter square facility in western Istanbul. Keskin Color produces nearly 1500 different products and nearly 6000 different designs. With this collection, Keskin Color is one of the biggest paper-stationery producers and market leader in licensed paper stationery products in Turkey. In addition to its own branded products, Keskin Color also works with more than 65 partners in 35 countries in order to produce OEM products.
