Press release

Do you want to find unique and functional stationery? Just visit KING JIM! It lineups wide variety of items from pen cases to electric products. KING JIM Co., Ltd. is a JAPANESE manufacturer of stationery for office as well as for personal use. Ever since it was founded in 1927, it has developed and sold numerous unique stationery, filing and electronic products.

Our core product of electronic category is the label printer "TEPRA". It enables you to create original labels easily. Hand sanitizer dispenser "tette" is the new product receiving people's attention today. It won the "iF Design Award 2020" and "German Design Award 2021".

Our biggest feature of stationery products is its unique functionality. We have wide variety of products such as pen cases, notebooks, organizer bags and filing tools.

KING JIM strives to improve the recognition all over the world and to gear up for the penetration into the overseas markets.
